Remarks

The iconic Terrace building is a masterpiece designed by renowned architect Frank Folsom Smith. This modernist building, built of poured concrete exudes strength and durability. Situated directly on Siesta Key Beach, and built with walls of sliding glass doors in every room to take advantage of the diverse, magnificent views in all directions. This is the penthouse being offered turnkey furnished. Fantastic views in all directions. It's perfect location on the island within walking distance to Siesta Key Village, and all its offerings. The rooftop saltwater pool is a beautiful addition that provides privacy and lovely beach views. Take a cocktail out to watch the sunset over the water! The building itself has undergone significant upgrades, making it a prestigious address on Siesta Key. Complete replacement of cast-iron pipes, geothermal well driven HVAC system keeps cost low, new generator for entire building, monitored water sensors in all units, installation of new gates at the front entrance with a new elevator and lobby. Come see for yourself why this stunning property is so very special.
